

MARSHAL KILLS  
MONTANA BANDIT

Three Men Hold Up First National Bank at Harlem.

## TWO MAKE CLEAN GETAWAY

Robbers Ride Into Town and Leave Horses in Rear of Bank—Two Enter Institution, Hold Up Clerks and One Proceeds to Rifle Vault—Marshal Appears on Scene, Kills Man With Booty and Exchanges Shots With the Outlaw on Guard.

Harlem, Mont., Aug. 1.—One bandit is dead and armed posses are scouring the country between here and the Bear Paw mountains in search of two others who escaped after they attempted to rob Senator Everett's First National bank of this town.

But for the quick work of Marshal J. Q. Taswell, who is also a deputy sheriff of Chouteau county, the bank would have been looted, but his deadly aim killed the man who was looting the vault and caused the man who was guarding the cashier and others in the bank office to flee.

Three men rode into the town and into the alley near the bank, dismounting and leaving the three horses in the care of one of the trio. The other two walked to the bank and entered by the front door.

Cashier J. A. Natch and Assistant Cashier J. A. Rasmussen were in the bank. The robbers ordered them to throw up their hands and, seeing the order emphasized by four revolvers, the bank officers obeyed.

Then the leader left his companion to guard the two and walked down the hall of the block and into the adjoining building, where Attorney John Collins and one of his clients, Fred Brockway, were discussing some business. The robber showed his gun and made them put up their hands. Then he marched them into the bank offices to keep the bank officials company.

With his companion guarding the four the leader went into the bank offices and began collecting cash.

The bandit first turned his attention to the money in the counter boxes and gathered everything in sight. All nickels and dimes were put into the shot sack which he carried. Then he turned to the vault and it was just here he made the error that cost his life and saved the cash to the bank.

## Left Revolver on Counter.

When he went into the vault he left his revolver on the counter and soon discovered his mistake. He came back quickly for the weapon, but showed some stage fright and in picking it up he dropped it, thus causing it to be discharged.

A passerby on the other side of the street a few minutes before had become suspicious of the actions of the men in the bank and he had notified Marshal Taswell. The marshal had turned his steps to the bank and was nearing the institution when the gun was discharged. That caused him to redouble his pace and he quickly entered the bank from the rear.

He entered fire on the man who was just emerging from the vault with the shot sack full of cash. It contained \$10,000 in currency. His first shot was accurate and the robber dropped dead, shot almost squarely through the heart.

Then a fusillade began between the robber guarding the bank prisoners and the marshal, the bandit backing toward the door. He shot so rapidly that his aim was poor and he failed to hit the marshal.

Whether the marshal wounded him is not certain, but he got out the door and, running to where his partner stood with the horses, they got on them and rode rapidly away.

A posse was hurriedly organized and pursuit begun in automobiles by men heavily armed. Messages were sent by runners to nearby towns for help. The robbers had made for the Milk river and crossed that stream about two miles from here. It soon was found the robbery had been most cleverly planned.

When everybody was trying to get news to surrounding towns the wires would not work. They had been cut.

It was afterward learned that wire fences between here and the Milk river had been cut and some rail fences had been taken down, showing that the robbers had made careful preparations for their escape.

## Chicago's Postal Bank Opens.

Chicago, Aug. 1.—Chicago's postal savings bank, the first to be opened in one of the larger cities, started doing business today.

WILL VOTE FOR  
FREE LIST BILL

Democratic Senators Hold Two Lengthy Caucuses.

## INSURES CONCERTED ACTION

Senator Bacon Offers Resolution Pledging Support to House Farmers' Free List Measure, Which Is Adopted—Effort Will Be Made to Pass Bill Unamended—House Will Ask Conference on Wool Tariff Revision Measure.

Washington, July 1.—After two lengthy caucuses all the Democratic senators decided unanimously to support the farmers' free list bill passed by the house. At the same time the Democrats of the house committee on ways and means formally decided to recommend to the house that it ask the senate for a conference on the wool tariff revision bill.

The senate caucus adopted a resolution offered by Senator Bacon pledging support to the house free list bill and insuring concerted action by the Democrats in an effort to pass the measure unamended. This is regarded as doubtful and it was agreed that in case of defeat the bill would be reoffered, modified by an amendment to be submitted by Senator Kern, granting the advantages of the bill only to those countries which add free of duty American corn, oats, hay, cotton and hogs.

Although the Bacon amendment was adopted unanimously Senator Bailey, whose proposed amendment to the bill adding farm products to the free list measure was killed by the action of the caucus, withdrew with some of his followers before the vote was taken. His withdrawal was not in the nature of a bolt, however, and a solid Democratic front is expected.

Just where the progressive Republicans stand is not so certain. Senators Clapp, Nelson, Poindexter and La Follette were said to be among Republican senators who would support the bill as it passed the house.

In the senate it developed in the debate on the free list bill that some of the proposed progressive Republican amendments would not encumber that measure. Senator Cummins of Iowa said he would offer his amendment to change the metal schedule of the present tariff when the cotton bill comes over from the house and not as a rider to the free list bill. Senator Bristow of Kansas announced he would not offer his sugar schedule revision amendment.

Senator Gore of Oklahoma introduced an amendment to the free list bill prohibiting free entry to Canadian agricultural implements, cotton bagging and ties, leather, boots, shoes, fence wire, meats, cereals, flour, lumber and salt until all of these articles are admitted into Canada free of duty.

## FAVORS RECALL OF JUDGES

Senator Owen Advocates Passage of His Measure.

Washington, Aug. 1.—Severe criticism of the supreme court of the United States marked the speech of Senator Owen of Oklahoma, who advocated before the senate the adoption of his bill providing for the election and recall of federal judges. This bill provides that any justice of the

supreme court, or any judge of any other United States court, shall be subject to recall by a resolution of congress; that all district and circuit judges of the United States shall be elected by the voters of the district or circuit; and that their tenure of office be four years.

When everybody was trying to get news to surrounding towns the wires would not work. They had been cut. It was afterward learned that wire fences between here and the Milk river had been cut and some rail fences had been taken down, showing that the robbers had made careful preparations for their escape.

## WADE H. ELLIS.

Special Counsel in Case Against Electrical Trust.

© 1910, by American Press Association

## GIVES TRUST LAST CHANCE

Close Up or Stand Prosecution the Ultimatum.

Washington, Aug. 1.—Lawyers for the so-called electrical trust have been notified of the government's ultimatum in the proposal to compromise the pending anti-trust suit against the organization. Whether the alleged trust will be dissolved without a fight will be determined by its action.

Another conference between Wade H. Ellis, the government's special counsel in the case, and attorneys for the trust will be held this week. It is believed an agreed decree will be presented in court soon thereafter.

WILEY COMPLAINS  
OF TOO MUCH FOAM

Pure Food Expert Wants Solid Glass of Beer.

Washington, Aug. 1.—Entering the illustrious names of Herodotus, Caesar, Plato and other ancients as earnest drinkers of beer, barley growers and brewers from throughout the country began testimony before the board of food and drug inspection to determine the long disputed question "What is beer?"

Dr. Harvey W. Wiley, chief chemist, who heads the board, shared honors with the ancient connoisseurs by announcing early that his chief complaint was that too little beer was found in the ordinary glass of commerce sold to the thirsty.

"I am tired of buying foam," said the pure food expert, indignantly. "There should be a line on glasses indicating where solid beer ends."

Dr. Wiley looked thirstily at the pitcher that stood on the speaker's table. It contained only water. There were no amber liquid samples at the hearing.

## PERFECTING THEIR PLANS

Canadian Political Parties Delay Campaign Work.

Ottawa, Ont., Aug. 1.—The Canadian election campaign will not be in full swing for a fortnight. As it is nearly seven weeks before election day and the usual length of a campaign is a month both parties feel that they profitably can devote some time to perfecting organizations before platform work is started vigorously. Prime Minister Laurier is not expected to start until the end of next week upon his speaking tour, with ratification of the reciprocity agreement with the United States as the vital issue. Opposition Leader Borden probably will begin his public appearance a little earlier.

Clifford Sifton, former minister of the interior, issued a letter urging Canadians to vote against reciprocity, which, he declares, would prove injurious to Canada and to the British empire.

## TERRIFIC STORM IN TEXAS

Two Persons Killed, Many Injured and Heavy Property Loss.

Abilene, Tex., Aug. 1.—Two persons are known to have been killed, a score are injured and practically every business house in Abilene is more or less damaged as the result of a storm of wind and hail which swept over this vicinity. A number of residences were also wrecked.

Dr. Hollis, a prominent physician, is one of the known dead. He was struck by a falling timber.

Electric and telephone wires are strewn over the streets and with the exception of one wire to Fort Worth telegraphic communication is cut off.

It is understood that the storm raged with equal fury elsewhere in Taylor county and farmers coming in from places three and four miles east and north bring stories of wholesale destruction of property.

## JOHN W. GATES NEAR DEATH

Condition of Financier Is Critical and Physicians Have Little Hope.

Paris, Aug. 1.—The condition of John W. Gates is critical. He is semi-conscious most of the time.

His physicians say that the pneumonia which has attacked both lungs has not increased. This was a good sign, they declared, and added that if the lungs began to clear up there may be a hope, although a very faint one, for Mr. Gates' recovery.

## Olive Trees.

The olive tree lives better under water than any other plant which is not aquatic.

VETO PROMISED  
FOR WOOL BILL

Announcement From White House Not Official.

## TARIFF SITUATION MUDDLED.

President May Surprise Some of the Regulars by Permitting Democratic Bills to Become Laws—Revision Is in the Air and Seems Assured For the Next Session.

By ARTHUR W. DUNN.

Washington, Aug. 1.—[Special.]—Announcement was made by the White House press people that a veto would meet the wool bill if the La Follette compromise or the Underwood bill should reach the president. The statement was not officially given out, but was made as soon as the La Follette bill had passed the senate.

Senator Lodge, who is pretty close to the administration, had also given it as his opinion that after the president's message on the subject of the tariff board reports he would not sign any tariff bill that might be sent to him at this session.

But even if there is a veto the fact is apparent that tariff revision is near at hand. The Democrats of the senate with thirteen insurgents and two regulars like Nelson and Mcumber voting for great reductions in the wool schedule and other Republicans joining them on other schedules mean that the reduction of the tariff is strong enough to carry.

## Tariff Revision Near.

Of course no tariff bill can be passed over the president's veto. As long as thirty-five Republican senators stand out against revision the president with his veto can stop tariff legislation. And yet revision is in the air. While several persons in authority say it will not be accomplished now, even Republican regulars say that there will be revision in the next session.

The fact that the insurgents have been voting with the Democrats and insuring the passage of tariff revision bills upsets many calculations in regard to the adjournment of the present session. The Democratic leaders have said all along that if the senate would pass their tariff bills they would keep sending them over, but it was well known then that those leaders did not believe the senate would pass their bills. As a matter of politics, the Democrats would prefer to have as many vetoes as possible and consequently they will no doubt continue their tariff bills for some time.

## "It's Taft's Session."

"It's Taft's session," remarked a disgruntled Republican. "He was so stuck on reciprocity that he called the session together, and it's up to him to take the consequences."

The president may surprise some of the regular Republicans by approving different tariff bills or allowing them to become laws without his signature. At the same time those standpatters who opposed the Canadian agreement and who were so bitterly opposed to the extra session think that the president is to blame and that he has put the G. O. P. "in a hole." And the insurgents, especially those who have been lashed unmercifully for opposing the reciprocity agreement, are enjoying themselves and the general political situation.

## Brandeis Not in It.

Louis Brandeis, the lawyer who made such a record as an investigator, was expected to be in the limelight of some of the investigations which have been conducted, but so far he has taken no part in them, although it has been announced that he will have charge of the Controller bill inquiry.

Brandeis had an opportunity to take hold of the postoffice inquiry, but declined. Then came the Controller bill inquiry, which he accepted just too soon to get hold of the Wiley inquiry, which promises to be more interesting than all others. And besides, the bottom seems to have dropped out of the Controller bill affair.

## Politics and Bedfellows.

During the closing days of the debate on the Canadian reciprocity bill that old metaphor about politics and bedfellows was worked rather hard, but Senator Gore got as much out of it as any one. Referring to a remark of Senator Kenyon about a high protectionist like Penrose and a free trader like Williams "blowing out the gas and creeping under the same counterpane" in favor of reciprocity, the Oklahoma senator said: "Just as striking it is to see La Follette and Smoot occupying the same couch and locked in affectionate embrace. We had just as soon repose in the brawny arms of the senator from Pennsylvania as rest in the sinuous arms of the senator from Utah."

Taft and Good Roads.

Probably it is on account of the many auto trips which the president takes, but at all events he is believed to be particularly friendly to good roads and is expected to endorse any national legislation that seems feasible.

"We are spending \$2,000,000 a year for roads in Alabama," remarked a man from that state, "and we do not get good roads. We hope to interest President Taft in the project and hope he will attend our road convention and give advice which will be heeded."

## The Right Cause.

Teacher—Sammy, in the sentence "I have a book," what is the case of the pronoun I?

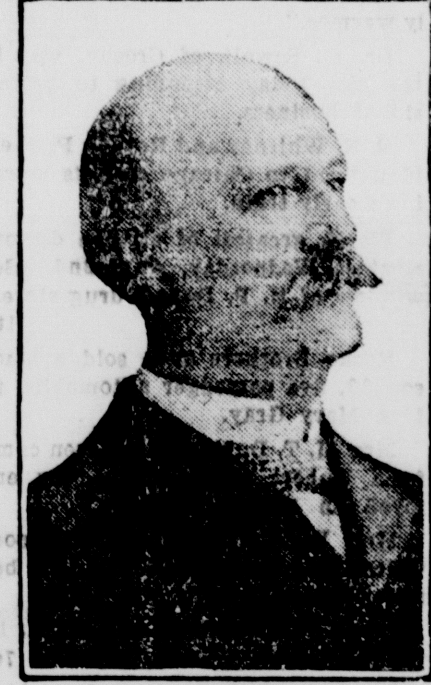

Sammy (promptly)—Nominative case.

Teacher—Next boy, tell me in what case to put the noun "book."

Next boy (thoughtfully)—Bookcase.

## SENATOR BACON.

Author of Resolution Supporting Farmers' Free List Bill.

## FRENCH CAPTURE GERMANS

Arrest Two of Six Who Crossed the Frontier From Lorraine.

Paris, Aug. 1.—A dispatch to the Journal from Nancy says that six German soldiers crossed the French frontier from Lorraine and that two of them were arrested by French soldiers and taken to the prison at Longwy, in the province of Meurthe.

According to the dispatch the Germans had cut the telegraph wires and broken down several telegraph posts.

COTTON MILLS CLOSE  
IN THE CAROLINAS

Drouth Throws Seventy Thousand Operatives Out of Work.

Charlotte, N. C., Aug. 1.—As a climax to the unprecedented drouth this section is experiencing 152 cotton mills in North and South Carolina shut down because the water in Catawba river is so low the Southern Power company cannot supply the plants with power. It is estimated that 70,000 operatives are thrown out of employment, but it is believed work will be resumed in two days.

It has been many weeks since rain of any consequence has fallen and creeks which have not gone dry before in forty-five years are mudholes. Mountain streams, upon which many flouring mills, tanneries and cotton mills are dependent for power, have dwindled to mere brooks. Crops are burning up in the fields, while the hot winds are playing havoc with cotton.

Cities and towns to the north and west of Charlotte are facing the ordeal of such a water famine as this city is now experiencing. At Greensboro, Salisbury, Concord, Spencer, Monroe, Wadesboro and other places the situation is grave and measures of economy are being rigidly enforced.

## WILL REBATE DUTY ON COAL

Dominion Government Comes to Relief of Western Canada.

Ottawa, Aug. 1.—Owing to the failure of coal miners and mine operators to settle the strike in Alberta mines which has existed throughout the summer and threatens Western Canada with a serious coal shortage the government decided to rebate the duties on bituminous coal brought in from the United States to Manitoba, Saskatchewan, Alberta and Eastern British Columbia.

The rebate will run two months. If the strike continues beyond that time the period will be extended, but if it is settled rebating will be discontinued two weeks after the mines resume operations.

## DISSOLUTION ABOUT DEC. 1

Standard Oil Company Intends to Conform to Law.

New York, Aug. 1.—Announcement was made by the Standard Oil company of New Jersey in a communication to its stockholders of the way it intends to reorganize to meet the provisions of the Sherman anti-trust law.

The plan provides that stock in about thirty-five subsidiary companies shall be distributed rotably among the stockholders in the parent company. Dissolution will be about Dec. 1.

The detailed plan showing what pro rata shares in the subsidiary companies the Standard Oil stockholders may expect under the reorganization will be made known later.

Chicago Lawyer Horsewhipped.

Chicago, Aug. 1.—Frank T. Brown, a prominent Chicago lawyer, was horsewhipped on a public highway in West Chicago by a woman supposed to be his wife. Then he was knocked down by her and, after a chase, caught and horsewhipped again.

## The Right Cause.

Teacher—Sammy, in the sentence "I have a book," what is the case of the pronoun I?

Sammy (promptly)—Nominative case.

Teacher—Next boy, tell me in what case to put the noun "book."

Next boy (thoughtfully)—Bookcase.

ALASKAN MESS  
GOES TO HOUSE

## REPEAL CLAPP AMENDMENT

Oklahoman Has Solution of White Earth Difficulties.

Washington, Aug. 1.—Major J. R. Howard, superintendent of the White Earth agency, was the only witness before the committee on expenditures in the interior department, which is investigating the Indian administration in Minnesota.

Representative Ferris of Oklahoma, a member of the committee, made a suggestion in the hearing which failed to find sympathy with Representative Graham of Illinois, the chairman. Mr. Ferris gave it as his belief that the crux of the situation was the necessity for the repeal of the Clapp amendment. The whole matter, he declared, should be referred to the committee on Indian affairs, with a recommendation for legislation providing for the repeal of the Clapp law, which permits the mixed bloods to alienate their allotments.

## STRINGENT MARRIAGE LAWS

Kansas City Judge Says That Would Be Remedy for Divorce Evil.

Kansas City, Aug. 1.—Nineteen hundred marriage licenses have been issued in this city since Jan. 1 and during that time 600 suits for divorce have been filed. This shows an increase in the number of divorce suits brought here, as about a year ago it was found that a ratio of one divorce suit to every four marriage licenses was maintained.

Judge Porterfield of the juvenile court said the situation demanded immediate improvement.

"Instead of devoting so much attention to divorce laws," he said, "it would be far better to make more stringent laws governing marriages."

## Famous American Artist Dying.

Philadelphia, Aug. 1.—A cablegram received by his brother, William Abbey, states that Edwin A. Abbey, the American painter, is dying in London. He had been ill some time.

MARSHAL KILLS  
MONTANA BANDITThree Men Hold Up First Na-  
tional Bank at Harlem.

TWO MAKE CLEAN GETAWAY

Robbers Ride Into Town and Leave  
Horses in Rear of Bank—Two Enter  
Institution, Hold Up Clerks and One  
Proceeds to Rifle Vault—Marshal  
Appears on Scene, Kills Man With  
Booty and Exchanges Shots With  
the Outlaw on Guard.

Harlem, Mont., Aug. 1.—One bandit  
dead and armed posses are scouring  
the country between here and the  
Bear Paw mountains in search of two  
others who escaped after they attempt-  
ed to rob Senator Everett's First Na-  
tional bank of this town.

But for the quick work of Marshal  
J. Q. Taswell, who is also a deputy  
sheriff of Chouteau county, the bank  
would have been looted, but his dead-  
ly aim killed the man who was looting  
the vault and caused the man who  
was guarding the cashier and others  
in the bank office to flee.

Three men rode into the town and  
into the alley near the bank, dis-  
mounting and leaving the three horses  
in the care of one of the trio. The  
other two walked to the bank and en-  
tered by the front door.

Cashier J. A. Natch and Assistant  
Cashier J. A. Rasmussen were in the  
bank. The robbers ordered them to  
throw up their hands and, seeing the  
order emphasized by four revolvers,  
the bank officers obeyed.

Then the leader left his companion  
to guard the two and walked down  
the hall of the block and into the ad-  
joining building, where Attorney John  
Collins and one of his clients, Fred  
Brockway, were discussing some busi-  
ness. The robber showed his gun and  
made them put up their hands. Then  
he marched them into the bank of-  
fices to keep the bank officials com-  
pany.

With his companion guarding the  
four the leader went into the bank  
offices and began collecting cash.

The bandit first turned his atten-  
tion to the money in the counter boxes  
and gathered everything in sight. All  
nickels and dimes were put into the  
shot sack which he carried. Then he  
turned to the vault and it was just  
here he made the error that cost his  
life and saved the cash to the bank.

Left Revolver on Counter.

When he went into the vault he  
left his revolver on the counter and  
soon discovered his mistake. He came  
back quickly for the weapon, but  
showed some stage fright and in  
picking it up he dropped it, thus caus-  
ing it to be discharged.

A passerby on the other side of the  
street a few minutes before had be-  
come suspicious of the actions of the  
men in the bank and he had notified  
Marshal Taswell. The marshal had  
turned his steps to the bank and was  
nearing the institution when the gun  
was discharged. That caused him to  
redouble his pace and he quickly en-  
tered the bank from the rear.

He entered fire on the man who was  
just emerging from the vault with the  
shot sack full of cash. It contained  
\$10,000 in currency. His first shot  
was accurate and the robber dropped  
dead, shot almost squarely through  
the heart.

Then a fusillade began between the  
robber guarding the bank prisoners  
and the marshal, the bandit backing  
toward the door. He shot so rapidly  
that his aim was poor and he failed  
to hit the marshal.

Whether the marshal wounded him  
is not certain, but he got out the door  
and, running to where his partner  
stood with the horses, they got on  
them and rode rapidly away.

A posse was hurriedly organized and  
pursuit begun in automobiles by men  
heavily armed. Messages were sent  
by runners to nearby towns for help.  
The robbers had made for the Milk  
river and crossed that stream about  
two miles from here. It soon was  
found the robbery had been most  
cleverly planned.

When everybody was trying to get  
news to surrounding towns the wires  
would not work. They had been cut.

It was afterward learned that wire  
fences between here and the Milk  
river had been cut and some rail  
fences had been taken down, showing  
that the robbers had made careful  
preparations for their escape.

Chicago's Postal Bank Opens.

Chicago, Aug. 1.—Chicago's postal  
savings bank, the first to be opened  
in one of the larger cities, started do-  
ing business today.

WILL VOTE FOR  
FREE LIST BILLDemocratic Senators Hold Two  
Lengthy Caucuses.

INSURES CONCERTED ACTION

Senator Bacon Offers Resolution  
Pledging Support to House Farmers'  
Free List Measure, Which Is Adopted—  
Effort Will Be Made to Pass  
Bill Unamended—House Will Ask  
Conference on Wool Tariff Revi-  
sion Measure.

Washington, July 1.—After two  
lengthy caucuses all the Democratic  
senators decided unanimously to sup-  
port the farmers' free list bill passed  
by the house. At the same time the  
Democrats of the house committee on  
ways and means formally decided to  
recommend to the house that it ask  
the senate for a conference on the  
wool tariff revision bill.

The senate caucus adopted a resolu-  
tion offered by Senator Bacon pledg-  
ing support to the house free list bill  
and insuring concerted action by the  
Democrats in an effort to pass the  
measure unamended. This is re-  
garded as doubtful and it was agreed  
that in case of defeat the bill would  
be reoffered, modified by an amend-  
ment to be submitted by Senator  
Kern, granting the advantages of the  
bill only to those countries which ad-  
mit free of duty American corn, oats,  
hay, cotton and hogs.

Although the Bacon amendment was  
adopted unanimously Senator Bailey,  
whose proposed amendment to the bill  
adding farm products to the free list  
measure was killed by the action of  
the caucus, withdrew with some of his  
followers before the vote was taken.  
His withdrawal was not in the nature  
of a bolt, however, and a solid Demo-  
cratic front is expected.

Just where the progressive Republi-  
cans stand is not so certain. Sena-  
tors Clapp, Nelson, Poindexter and La  
Follette were said to be among Repub-  
lican senators who would support  
the bill as it passed the house.

In the senate it developed in the  
debate on the free list bill that some  
of the proposed progressive Republican  
amendments would not encumber that  
measure. Senator Cummins of Iowa  
said he would offer his amendment to  
change the metal schedule of the pres-  
ent tariff when the cotton bill comes  
over from the house and not as a rider  
to the free list bill. Senator Bristow  
of Kansas announced he would not offer  
his sugar schedule revision amend-  
ment.

Senator Gore of Oklahoma intro-  
duced an amendment to the free list  
bill prohibiting free entry to Canadian  
agricultural implements, cotton bag-  
ging and ties, leather, boots, shoes,  
fence wire, meats, cereals, flour, lum-  
ber and salt until all of these articles  
are admitted into Canada free of duty.

## FAVORS RECALL OF JUDGES

Senator Owen Advocates Passage of  
His Measure.

Washington, Aug. 1.—Severe criti-  
cism of the supreme court of the  
United States marked the speech of  
Senator Owen of Oklahoma, who ad-  
vocated before the senate the adoption  
of his bill providing for the election  
and recall of federal judges. This  
bill provides that any justice of the

ROBERT L. OWEN.

supreme court, or any judge of any  
other United States court, shall be  
subject to recall by a resolution of  
congress; that all district and circuit  
judges of the United States shall be  
elected by the voters of the district or  
circuit; and that their tenure of of-  
fice be four years.

## WOOL GROWERS IN PROTEST

Appeal to President Taft to Veto Bill  
Recently Passed by Senate.

Washington, Aug. 1.—President Taft  
received a long telegram from F. R.  
Gooding, president of the National  
Wool Growers' association, protesting  
against what he terms "the ill advised  
wool bill" recently passed by the sen-  
ate. The appeal concluded thus:

"I appeal to you Mr. President, in  
the name of nearly 1,000,000 American  
wool growers, who earnestly pray that  
you will allow no measure affecting  
the wool industry to become a law  
until all the facts as to the cost of  
producing wool and cloth have been  
submitted to congress."

WADE H. ELLIS.

Special Counsel in Case  
Against Electrical Trust.

© 1910, by American Press Association

## GIVES TRUST LAST CHANCE

Close Up or Stand Prosecution the  
Ultimatum.

Washington, Aug. 1.—Lawyers for  
the so called electrical trust have been  
notified of the government's ultimatum  
in the proposal to compromise the  
pending anti-trust suit against the or-  
ganization. Whether the alleged trust  
will be dissolved without a fight will  
be determined by its action.

Another conference between Wade  
H. Ellis, the government's special  
counsel in the case, and attorneys for  
the trust will be held this week. It  
is believed an agreed decree will be  
presented in court soon thereafter.

WILEY COMPLAINS  
OF TOO MUCH FOAMPure Food Expert Wants Solid  
Glass of Beer.

Washington, Aug. 1.—Entering the  
flustrious names of Herodotus, Caesar,  
Plato and other ancients as  
earnest drinkers of beer, barley grow-  
ers and brewers from throughout the  
country began testimony before the  
board of food and drug inspection to  
determine the long disputed question  
"What is beer?"

Dr. Harvey W. Wiley, chief chem-  
ist, who heads the board, shared hon-  
ors with the ancient connoisseurs by  
announcing early that his chief com-  
plaint was that too little beer was  
found in the ordinary glass of com-  
merce sold to the thirsty.

"I am tired of buying foam," said  
the pure food expert, indignantly.  
"There should be a line on glasses in-  
dicating where solid beer ends."

Dr. Wiley looked thirstily at the  
pitcher that stood on the speaker's  
table. It contained only water. There  
were no amber liquid samples at the  
hearing.

## PERFECTING THEIR PLANS

Canadian Political Parties Delay Cam-  
paign Work.

Ottawa, Ont., Aug. 1.—The Canadian  
election campaign will not be in full  
swing for a fortnight. As it is nearly  
seven weeks before election day and  
the usual length of a campaign is a  
month both parties feel that they  
profitably can devote some time to  
perfecting organizations before plat-  
form work is started vigorously. Prime  
Minister Laurier is not expected to  
start until the end of next week upon  
his speaking tour, with ratification of  
the reciprocity agreement with the  
United States as the vital issue. Op-  
position Leader Borden probably will  
begin his public appearance a little  
earlier.

Clifford Sifton, former minister of  
the interior, issued a letter urging  
Canadians to vote against reciprocity,  
which, he declares, would prove injuri-  
ous to Canada and to the British  
empire.

Politics and Bedfellows.  
During the closing days of the de-  
bate on the Canadian reciprocity bill  
that old metaphor about politics and  
bedfellows was worked rather hard,  
but Senator Gore got as much out of  
it as any one. Referring to a remark  
of Senator Kenyon about a high pro-  
tectionist like Penrose and a free  
trader like Williams "blowing out the  
gas and creeping under the same cover-  
let" in favor of reciprocity, the  
Oklahoma senator said: "Just as strik-  
ing is it to see La Follette and Smoot  
occupying the same couch and locked  
in affectionate embrace. We had just  
as soon repose in the bawny arms of  
the senator from Pennsylvania as rest  
in the sinuous arms of the senator  
from Utah."

TERRIFIC STORM IN TEXAS

Two Persons Killed, Many Injured and  
Heavy Property Loss.

Arlene, Tex., Aug. 1.—Two persons  
are known to have been killed, a score  
are injured and practically every busi-  
ness house in Arlene is more or less  
damaged as the result of a storm of  
wind and hail which swept over this  
vicinity. A number of residences were  
also wrecked.

Dr. Hollis, a prominent physician, is  
one of the known dead. He was  
struck by a falling timber.

Electric and telephone wires are  
strewn over the streets and with the  
exception of one wire to Fort Worth  
telegraphic communication is cut off.

It is understood that the storm  
raged with equal fury elsewhere in  
Taylor county and farmers coming in  
from places three and four miles east  
and north bring stories of wholesale  
destruction of property.

## JOHN W. GATES NEAR DEATH

Condition of Financier Is Critical and  
Physicians Have Little Hope.

Paris, Aug. 1.—The condition of  
John W. Gates is critical. He is  
semi-conscious most of the time.

His physicians say that the pneu-  
monia which has attacked both lungs  
has not increased. This was a good  
sign, they declared, and added that if  
the lungs began to clear up there may  
be a hope, although a very faint one,  
for Mr. Gates' recovery.

VETO PROMISED  
FOR WOOL BILLAnnouncement From White House  
Not Official.

TARIFF SITUATION MUDDLED.

President May Surprise Some of the  
Regulars by Permitting Democratic  
Bills to Become Laws—Revision Is in  
the Air and Seems Assured For the  
Next Session.

By ARTHUR W. DUNN.

Washington, Aug. 1.—[Special.]—An-  
nouncement was made by the White  
House press people that a veto would  
meet the wool bill if the La Follette  
compromise or the Underwood bill  
should reach the president. The state-  
ment was not officially given out, but  
was made as soon as the La Follette  
bill had passed the senate.

Senator Lodge, who is pretty close to  
the administration, had also given it  
as his opinion that after the president's  
message on the subject of the tariff  
board reports he would not sign any  
tariff bill that might be sent to him  
at this session.

But even if there is a veto the fact  
is apparent that tariff revision is near  
at hand. The Democrats of the sen-  
ate with thirteen insurgents and two  
regulars like Nelson and Mcumber  
voting for great reductions in the  
wool schedule and other Republicans  
joining them on other schedules mean  
that the reduction of the tariff is  
strong enough to carry.

Tariff Revision Near.

Of course no tariff bill can be passed  
over the president's veto. As long  
as thirty-five Republican senators stand  
out against revision the president with  
his veto can stop tariff legislation.  
And yet revision is in the air. While  
several persons in authority say it will  
not be accomplished now, even Repub-  
lican regulars say that there will be  
revision in the next session.

The fact that the insurgents have  
been voting with the Democrats and  
insuring the passage of tariff revision  
bills upsets many calculations in re-  
gard to the adjournment of the pres-  
ent session. The Democratic leaders  
have said all along that if the senate  
would pass their tariff bills they would  
keep sending them over, but it was  
well known then that those leaders  
did not believe the senate would pass  
their bills. As a matter of politics, the  
Democrats would prefer to have as  
many vetoes as possible and conse-  
quently they will no doubt continue  
their tariff bills for some time.

"It's Taft's Session."

"It's Taft's session," remarked a dis-  
gruntled Republican. "He was so  
stuck on reciprocity that he called the  
session together, and it's up to him to  
take the consequences."

The president may surprise some of  
the regular Republicans by approving  
different tariff bills or allowing them  
to become laws without his signature.  
At the same time those standpatters  
who opposed the Canadian agreement  
and who were so bitterly opposed to  
the extra session think that the pres-  
ident is to blame and that he has put  
the G. O. P. "in a hole." And the in-  
surgents, especially those who have  
been lashed unmercifully for opposing  
the reciprocity agreement, are enjoy-  
ing themselves and the general politi-  
cal situation.

Brandeis Not In It.

Louis Brandeis, the lawyer who  
made such a record as an investigator,  
was expected to be in the limelight  
of some of the investigations which  
have been conducted, but so far he has  
taken no part in them, although it has  
been announced that he will have  
charge of the Controller bay inquiry.

Brandeis had an opportunity to take  
hold of the postoffice inquiry, but de-  
clined. Then came the Controller bay  
inquiry, which he accepted just too  
soon to get hold of the Wiley inquiry,  
which promises to be more interesting  
than all others. And besides, the bot-  
tom seems to have dropped out of the  
Controller bay affair.

Politics and Bedfellows.

During the closing days of the de-  
bate on the Canadian reciprocity bill  
that old metaphor about politics and  
bedfellows was worked rather hard,  
but Senator Gore got as much out of  
it as any one. Referring to a remark  
of Senator Kenyon about a high pro-  
tectionist like Penrose and a free  
trader like Williams "blowing out the  
gas and creeping under the same cover-  
let" in favor of reciprocity, the  
Oklahoma senator said: "Just as strik-  
ing is it to see La Follette and Smoot  
occupying the same couch and locked  
in affectionate embrace. We had just  
as soon repose in the bawny arms of  
the senator from Pennsylvania as rest  
in the sinuous arms of the senator  
from Utah."

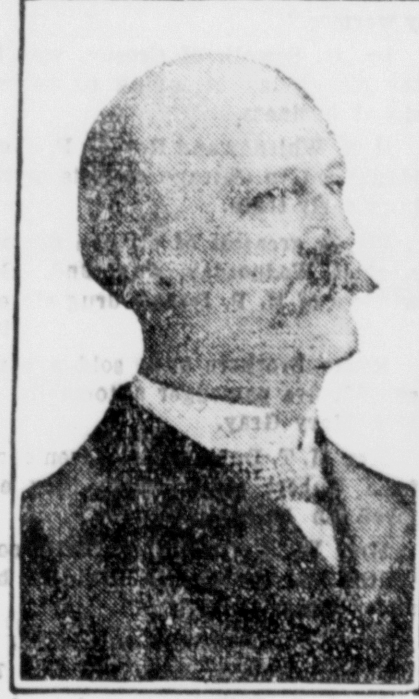

Taft and Good Roads.

Probably it is on account of the  
many auto trips which the president  
takes, but at all events he is believed  
to be particularly friendly to good  
roads and is expected to indorse any  
national legislation that seems feasi-  
ble. "We are spending \$2,000,000 a  
year for roads in Alabama," remarked  
a man from that state, "and we do  
not get good roads. We hope to in-  
terest President Taft in the project  
and hope he will attend our roads con-  
vention and give advice which will be  
heeded."

Olive Trees.

The olive tree lives better under wa-  
ter than any other plant which is not  
aquatic.

SENATOR BACON.

Author of Resolution Support-  
ing Farmers' Free List Bill.

## FRENCH CAPTURE GERMAN

Arrest Two of Six Who Crossed the  
Frontier From Lorraine.

Paris, Aug. 1.—A dispatch to the  
Journal from Nancy says that six Ger-  
man soldiers crossed the French fron-  
tier from Lorraine and that two of  
them were arrested by French sol-  
diers and taken to the prison at Long-  
wy, in the province of Meurthe.

According to the dispatch the Ger-  
mans had cut the telegraph wires and  
broken down several telegraph posts.

COTTON MILLS CLOSE  
IN THE CAROLINASDrouth Throws Seventy Thousand  
Operatives Out of Work.

Charlotte, N. C., Aug. 1.—As a cli-  
max to the unprecedented drouth this  
section is experiencing 152 cotton  
mills in North and South Carolina  
shut down because the water in Cata-  
wba river is so low the Southern  
Power company cannot supply the  
plants with power. It is estimated  
that 70,000 operatives are thrown out  
of employment, but it is believed work  
will be resumed in two days.

It has been many weeks since rain  
of any consequence has fallen and  
creeks which have not gone dry be-  
fore in forty-five years are mudholes.  
Mountain streams, upon which many  
flouring mills, tanneries and cotton  
mills are dependent for power, have  
 dwindled to mere brooks. Crops are  
burning up in the fields, while the hot  
winds are playing havoc with cotton.

Cities and towns to the north and  
west of Charlotte are facing the or-  
deal of such a water famine as this  
city is now experiencing. At Greens-  
boro, Salisbury, Concord, Spencer,  
Monroe, Wadesboro and other places  
the situation is grave and measures  
of economy are being rigidly enforced.

## WILL REBATE DUTY ON COAL

Dominion Government Comes to Re-  
lief of Western Canada.

Ottawa, Aug. 1.—Owing to the fail-  
ure of coal miners and mine operators  
to settle the strike in Alberta mines  
which has existed throughout the  
summer and threatens Western Cana-  
da with a serious coal shortage the  
government decided to rebate the  
duties on bituminous coal brought in  
from the United States to Manitoba,  
Saskatchewan, Alberta and Eastern  
British Columbia.

The rebate will run two months. If  
the strike continues beyond that time  
the period will be extended, but if it  
is settled rebating will be discon-  
tinued two weeks after the mines re-  
sume operations.

## DISSOLUTION ABOUT DEC. 1

Standard Oil Company Intends to Con-  
form to Law.

New York, Aug. 1.—Announcement  
was made by the Standard Oil com-  
pany of New Jersey in a communica-  
tion to its stockholders of the way it  
intends to reorganize to meet the pro-  
visions of the Sherman anti-trust law.  
The plan provides that stock in  
about thirty-five subsidiary companies  
shall be distributed rotably among the  
stockholders in the parent company.  
Dissolution will be about Dec. 1.

The detailed plan showing what pro-  
rata shares in the subsidiary com-  
panies the Standard Oil stockholders  
may expect under the reorganization  
will be made known later.

## Chicago Lawyer Horsewhipped.

Chicago, Aug. 1.—Frank T. Brown,  
a prominent Chicago lawyer, was  
horsewhipped on a public highway in  
West Chicago by a woman supposed  
to be his wife. Then he was knocked  
down by her and, after a chase, caught  
and horsewhipped again.

## The Right Case.

Teacher—Sammy, in the sentence "I  
have a book," what is the case of the  
pronoun I?

Sammy (promptly)—Nominative case.

Teacher—Next boy, tell me in what  
case to put the noun "book."

Next Boy (thoughtfully)—Bookcase.

ALASKAN MESS  
GOES TO HOUSE

## REPEAL CLAPP AMENDMENT

Oklahoman Has Solution of White  
Earth Difficulties.

Washington, Aug. 1.—Major J. R.  
Howard, superintendent of the White  
Earth agency, was the only witness  
before the committee on expenditures  
in the interior department, which is  
investigating the Indian administra-  
tion in Minnesota.

Representative Ferris of Oklahoma,  
a member of the committee, made a  
suggestion in the hearing which failed  
to find sympathy with Representative  
Graham of Illinois, the chairman. Mr.  
Ferris gave it as his belief that the  
crux of the situation was the neces-  
sity for the repeal of the Clapp amend-  
ment. The whole matter, he declared,  
should be referred to the committee  
on Indian affairs, with a recommenda-  
tion for legislation providing for the  
repeal of the Clapp law, which per-  
mits the mixed bloods to alienate their  
allotments.

## STRINGENT MARRIAGE LAWS

Kansas City Judge Says That Would  
Be Remedy for Divorce Evil.

Kansas City, Aug. 1.—Nineteen hun-  
dred marriage licenses have been is-  
sued in this city since Jan. 1 and dur-  
ing that time 600 suits for divorce  
have been filed. This shows an in-  
crease in the number of divorce suits  
brought here, as about a year ago it  
was found that a ratio of one divorce  
suit to every four marriage licenses  
was maintained.

Judge Porterfield of the juvenile  
court said the situation demanded im-  
mediate improvement.

"Instead of devoting so much atten-  
tion to divorce laws," he said, "it  
would be far better to make more  
stringent laws governing marriages."

## Famous American Artist Dying.

Philadelphia, Aug. 1.—A cablegram  
received by his brother, William Ab-  
bey, states that Edwin A. Abbey, the  
American painter, is dying in London.  
He had been ill some time.

The new scientific ink pencil, one day advertising sale, \$1.00 value 25c. Sale Wednesday, Aug. 2. Watch window of H. P. Dunn's drug store. 1tp

Some young men are making it a practice to peep into South Side windows after ten o'clock in the evening and scaring nervous women. No woman at home alone likes to see a man's face suddenly glued at a window or see some one walking on a porch and endeavoring to peer in. Householders are planning to unite and make a rear attack some night which will certainly surprise these prowlers.

Every Monday, Wednesday and Friday the Dispatch will give one of its subscribers two complimentary tickets to the performance of the Empress theatre. Watch the want columns for the names of these entitled to tickets.

Rain wet down the field so much Monday night that the Considine team of old timers and the Brainerd city team did not enjoy a practice game. Bets are being placed in the court house that Sam Parker knocks out a home run and will make the run around the bases ahead of the ball if he has to use the delivery wagon to do it. It was thought first that Parker would be pitcher as he has the best all round delivery in town. 48t3

This world has many sins and many miseries. It is not a world for the selfish greed of gain, nor the selfish pantings of ambition, nor the selfish struggles of power, but a world for self abandonment, for sacrifice, for heroic toil. He who seeks only to get a living here is the merest earthworm. He who sighs for place and fame is the merest trifler. He who builds a throne for himself upon the necks of men shall become a hissing and a byword among the nations. Only he shall be loved of God and honored of men who is found to have accomplished something for human happiness and human good.—Rosalind D. Hitchcock.

## WEEDS DECLARED NOXIOUS BY LAW

No Person Owning, Occupying or Controlling Land Shall Permit Such Weeds to Grow

### THE LAW IS VERY STRINGENT

Mayor to Serve Notice on Law Violators and Charge Cutting Expenses up on Their Taxes

The question of cutting down and destroying Russian and Canada thistles and other noxious weeds has caused some discussion and many have done away with the weeds on their property.

There was first supposed to be no direct law on the subject and it was thought necessary to draft an ordinance in order to reach some of the delinquent property holders of this city. Street Commissioner Wm. Barrons has given the Dispatch the following resume of the state law bearing on weeds as compiled by his son, Attorney Barron:

Revised laws of Minnesota, Chapter 37, Noxious weeds. Sec. 2375—Weeds declared noxious—Each of the plants mentioned in this section is hereby declared to be a noxious weed and a common nuisance. No person owning, occupying or controlling land shall permit:

1. Any wild mustard, wild oats, cocklebur, burdock or tumble-mustard to go to seed thereon.

2. Any Canada thistle, oxeye daisy, or quack grass to go to seed thereon, or for more than two successive years, to reproduce itself thereon by crowns, underground stems or buds.

3. Any French weed to produce seeds thereon for more than four successive years.

4. Any Russian thistle to grow or

remain thereon at all.

Sec. 2376—For all purposes of this chapter, the half of any road, or street lying next to the lands abutting thereon shall be considered a part of such land. No person owning, occupying or controlling land shall permit any noxious weed, or any white daisy, snapdragon or toad flax, sow thistle, sour dock, yellow dock, or other weeds or grasses, to produce seeds upon such adjoining half of the highway. Sections 2377-2381 provide for the enforcement of these laws and make it the duty of the chairman of the town board or the mayor of the city to serve written notice upon any person violating the noxious weed law whenever written complaint shall be made to such officer. If any person fails or refuses to obey such notice within six days thereafter the land is subject to taxation of the amount which is expended by the town or city in destroying noxious weeds or grasses.

## COMPROMISE FREE LIST BILL PASSED

Special to The Dispatch:

Washington, August 1, 1911—The house farmers free list bill, exempting from tariff duties a variety of agricultural implements, cereals, meats, cotton, bagging and other articles was defeated by the senate today by tie vote of 39 to 39. Senator Kern, of Indiana, democrat, then offered a compromise amendment taking meats off the free list when coming from countries that do not admit American cotton, corn, wheat, oats, horses, cattle and hogs free of duty. This compromise measure was adopted by a vote of 48 to 30.

When you want Job Work of the best quality give The Dispatch a trial.

## POSTING AKELEY-BRAINERD SIGNS

The Red River Lumber Co. Sent Out Two Men on the Work Who Had a Stormy Trip

### A DESCRIPTION OF THE ROADS

Roads From Akeley to Pequot Good, But Trouble Experienced Between Pequot and Brainerd

The two men, H. Johnson and H. D. Schaefer, says the Akeley Herald-Tribune, who were sent out from Akeley last Saturday by the Red River Lumber Co. to place guide boards between Akeley and Brainerd, were caught in the rain storm when out about seven miles from Akeley and experienced a most trying trip into Brainerd, where they landed Sunday afternoon. They were forced to "tie up" at one small town Saturday evening. They ran direct into Brainerd, checking up the mileage recorded on the speedometer at the proposed stations as they proceeded. There was a constant down-pour. At Brainerd the men painted in the mileage on the guide boards, preparatory to placing them on the return trip.

Mayor Dunn of Brainerd, entertained the pathfinders and when the news of their arrival had become generally known among the business men, much enthusiasm was aroused, and a movement inaugurated to extend the guide boards from Brainerd to Minneapolis. It is probable that the work of making the guide boards is now in progress. Messrs. Johnson and Schaefer left Brainerd Monday morning. The roads were almost impassable between Brainerd and Pequot. In a pot hole at the bottom of one of the steep hills, Johnson's auto struck a stump, which was covered with water, and quite badly damaged

the machine. The boards were all stationed, 24 in number, and the "boys" arrived home Monday evening.

The roads from Akeley to Pequot are good, as a general rule. The cloudburst and continued rains of Saturday and Sunday were especially hard on the road between Pequot and Brainerd. The road could be put in good condition at a small expense, and it is probable that Pequot and Brainerd officials and business men will attend to this important matter. A good automobile road from Minneapolis to Akeley, which latter town is also the gateway to Itasca State Park, Park Rapids, Bemidji and Walker, will be one of the best moves ever made for the settlement of North Central Minnesota. The most beautiful and interesting play grounds of the state can be reached by this road. Hundreds of automobile parties from the cities and even from the neighboring states will make the trip. These people have the money and they are not going to close their eyes to the hundreds of 100 per cent profit bearing investments that will arrest their attention all along the line.

## INSANE ASYLUM BURNED TO GROUND

Special to Dispatch:—

Hamilton, Ont., August 1, 1911—Eight bodies have been taken from the ruins of the Hamilton insane asylum which was destroyed by fire early this morning.

It is feared that there are many additional bodies in the ruins which are now being searched.

There were 600 patients in the institution when the fire broke out and eighty-five of these, considered among the most dangerous, were confined on the fifth floor.

## Cool Days Half Price Coats Half Price Suits

Such as you will wear until cold weather

Yes, and you will have more cool days and nothing would be more profitable for you to put your money into than one of these garments.

These will be just what you want to wear until you need your heavy wrap in the winter. Better see them at once.

## HOLDING TEACHERS EXAMINATION

Monday and Tuesday Examinations Held at High School for Second Grade Certificates

### ABOUT 80 STUDENTS PRESENT

The First Grade Examination Will be Held on Wednesday at the Court House

About 80 young people are at the assembly room of the high school taking the second grade teachers examination. The examinations are in charge of the county superintendent, Mrs. Irma Camp Hartley and she is assisted in the work by Miss Katherine Whiteley, of Grand Forks, N. D., and Mrs. J. A. Wilson, of Brainerd.

The studies taken up on Monday included spelling, arithmetic, geography, composition, reading and penmanship.

On Tuesday the studies included U. S. History, English grammar, music, physiology-hygiene, civics and agriculture.

On Wednesday the examination will be held at the court house for teachers certificates of the first grade and the studies there include geometry, physics, algebra, physical geography or general history.

### WHAT ST. CLOUD SAID

Daily Journal-Press Notes About the Brainerd-St. Cloud Baseball Game on Sunday

The Daily Journal-Press of St. Cloud publishes a two and one-half column write-up of the Brainerd-St. Cloud baseball game of Sunday and references to the Brainerd team culled from the article are as follows:

"Before one of the largest crowds ever assembled at Athletic park in St. Cloud the St. Cloud baseball team defeated the Brainerd aggregation by the overwhelming score of 12 to 1. Big Chief Roy, who held the locals safe after relieving McClintock in the Rapids game last Sunday, was on the mound for the visitors and the lambasting he received in the three innings will never be a pleasant memory. Ten safe drives were made off the Indian's delivery and he gave two free transportation to first.

"The hooks were applied effectively to the Indian in the fourth stanza, Bush taking up the heavy burden and twirled good ball the balance of the game. Brainerd made their lone score in the sixth inning on two safe drives.

"There were 722 paid admissions in the stand and figuring the passes that were issued, it is estimated there were 800 in the stand. The grandstand, however, was too small for the large crowd that attended the game. The receipts show that there were 1,235 paid admissions into the grounds, but with the passes and the kids that got over the fence, nearly 1,500 people saw the game.

"Several hundred people were unable to gain admission into the stand and were compelled to sit down in front of the stand or along the fences.

"Brainerd certainly has a bunch of loyal fans. It is estimated that there were 500 rooters who accompanied the team on the special train to St. Cloud. They brought the band down and the members discoursed several pretty selections during the game. A band at a ball game liven things up in great style.

"One of the prettiest plays in the art of fielding a ball was pulled off in the fifth inning. Bush, for the visitors, knocked a grounder to the left of Dr. Thielman and he made a race after the ball. Tufford, first base and Lacher, second base, both started after the ball and Thielman, seeing the only chance to catch the runner would be to cover first, made a dash for the initial sack and caught the ball fielded by Lacher on the dead run, touching the bag and putting the runner out.

"Cummins of Brainerd and Dan Chisholm, of St. Cloud, umpired the game and the work of both officials was highly satisfactory on both sides.

"Charley! Quick, the monkey wrench!"

## WEEDS DECLARED NOXIOUS BY LAW

No Person Owning, Occupying or Controlling Land Shall Permit Such Weeds to Grow

### THE LAW IS VERY STRINGENT

Mayor to Serve Notice on Law Violators and Charge Cutting Expense up on Their Taxes

The question of cutting down and destroying Russian and Canada thistles and other noxious weeds has caused some discussion and many have done away with the weeds on their property.

There was first supposed to be no direct law on the subject and it was thought necessary to draft an ordinance in order to reach some of the delinquent property holders of this city. Street Commissioner Wm. Barron has given the Dispatch the following resume of the state law bearing on weeds as compiled by his son, Attorney Barron:

Revised laws of Minnesota, Chapter 37, Noxious weeds, Sec. 2375—Weeds declared noxious—Each of the plants mentioned in this section is hereby declared to be a noxious weed and a common nuisance. No person owning, occupying or controlling land shall permit:

1. Any wild mustard, wild oats, cocklebur, burdock or tumble-mustard to go to seed thereon.
2. Any Canada thistle, oxeye daisy, or quack grass to go to seed thereon, or for more than two successive years, to reproduce itself thereon by crowns, underground stems or buds.
3. Any French weed to produce seeds thereon for more than four successive years.
4. Any Russian thistle to grow or

remain thereon at all.

Sec. 2376—For all purposes of this chapter, the half of any road, or street lying next to the lands abutting thereon shall be considered a part of such land. No person owning, occupying or controlling land shall permit any noxious weed, or any white daisy, snapdragon or toad flax, sow thistle, sour dock, yellow dock, or other weeds or grasses, to produce seeds upon such adjoining half of the highway. Sections 2377-2381 provide for the enforcement of these laws and make it the duty of the chairman of the town board or the mayor of the city to serve written notice upon any person violating the noxious weed law whenever written complaint shall be made to such officer. If any person fails or refuses to obey such notice within six days thereafter the land is subject to taxation of the amount which is expended by the town or city in destroying noxious weeds or grasses.

## COMPROMISE FREE LIST BILL PASSED

Special to The Dispatch:

Washington, August 1, 1911—The house farmers free list bill, exempting from tariff duties a variety of agricultural implements, cereals, meats, cotton, bagging and other articles was defeated by the senate today by tie vote of 39 to 39. Senator Kern, of Indiana, democrat, then offered a compromise amendment taking meats off the free list when coming from countries that do not admit American cotton, corn, wheat, oats, horses, cattle and hogs free of duty. This compromise measure was adopted by a vote of 48 to 30.

When you want Job Work of the best quality give The Dispatch a trial.

## POSTING AKELEY-BRAINERD SIGNS

The Red River Lumber Co. Sent Out Two Men on the Work Who Had a Stormy Trip

### A DESCRIPTION OF THE ROADS

Roads From Akeley to Pequot Good, But Trouble Experienced Between Pequot and Brainerd

The two men, H. Johnson and H. D. Schaefer, says the Akeley Herald-Tribune, who were sent out from Akeley last Saturday by the Red River Lumber Co. to place guide boards between Akeley and Brainerd, were caught in the rain storm when out about seven miles from Akeley and experienced a most trying trip into Brainerd, where they landed Sunday afternoon. They were forced to "tie up" at one small town Saturday evening. They ran direct into Brainerd, checking up the mileage recorded on the speedometer at the proposed stations as they proceeded. There was a constant down-pour. At Brainerd the men painted in the mileage on the guide boards, preparatory to placing them on the return trip.

Mayor Dunn of Brainerd, entertained the pathfinders and when the news of their arrival had become generally known among the business men, much enthusiasm was aroused, and a movement inaugurated to extend the guide boards from Brainerd to Minneapolis. It is probable that the work of making the guide boards is now in progress. Messrs. Johnson and Schaefer left Brainerd Monday morning. The roads were almost impassable between Brainerd and Pequot. In a pot hole at the bottom of one of the steep hills, Johnson's auto struck a stump, which was covered with water, and quite badly damaged

the machine. The boards were all stationed, 24 in number, and the "boys" arrived home Monday evening.

The roads from Akeley to Pequot are good, as a general rule. The cloudburst and continued rains of Saturday and Sunday were especially hard on the road between Pequot and Brainerd. The road could be put in good condition at a small expense, and it is probable that Pequot and Brainerd officials and business men will attend to this important matter. A good automobile road from Minneapolis to Akeley, which latter town is also the gateway to Itasca State Park, Park Rapids, Bemidji and Walker, will be one of the best moves ever made for the settlement of North Central Minnesota. The most beautiful and interesting play grounds of the state can be reached by this road. Hundreds of automobile parties from the cities and even from the neighboring states will make the trip. **H. W. LINNEMANN, 616 Front St.**

HORSE SHOW AT FAIR

Every Effort is Being Made to Get Best Attractions for the Same

Hameline, Minn., July 1911.—Special effort is being made by state fair officials to secure the highest class attractions for the horse show that will be given four nights during the fair in the big live stock pavilion. A number of the leading exhibitors of the best horses have signified their intention of coming and this show, which will be a maiden effort on the part of the fair management, promises to be of unusual merit.

One of the greatest attractions of the night show will be furnished by Milt. S. Mooney of San Antonio, Texas, who will show his famous illuminated tandem team and cart. Mr. Mooney is the designer and builder and uses a battery unlike any other in existence. This battery is controlled by sixteen different switches which are used to give different lighting effects.

The spirited tandem team is driven into the arena in absolute darkness by Mr. Mooney, who is acknowledged to be one of the best horsemen in the country and proves it by his handling of the horses in this act. Beside his mastery of the horses he manipulates various switches which control the eight hundred lights decorating the horses and vehicle.

First the spotlights on the browbands of the horses are turned on. Then in turn are lighted the harnesses, the wheels of the cart, the whip of the driver, the American flag and lastly the Lone Star, the emblem of Mr. Mooney's state. All of this is timed to the music of "San Antonio," "Star Spangled Banner," "America" and "Dixie," which make up the program in regular order.

The harness and regular are done in burnished silver, giving, even without the lights, a most beautiful effect. Mr. Mooney, who is famous for his fine thoroughbreds, will bring several other horses with him and will exhibit them in different ways each night of the show.

The same horse.

An inexperienced young fellow was called upon to make a speech at a banquet at which Speaker Cannon was present. In fact, the speaker sat next to the young man.

"Gentlemen," began the young fellow, "my opinion is that the generality of mankind in general is disposed to take advantage of the generality of."

The speaker grabbed the boy by the arm and, pulling him down to him, said:

"Sit down, son. You are coming out of the same hole you went in."—Exchange.

Thirty Years Together

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guess work in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and its the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay-fever, croup, quinsy or sore lungs. Price 50c \$1. Trial bottle free. Guaranteed by all druggists.

NEW SHOE STORE

"Middlemas Shoe Store" Will Occupy Quarters in the Walker Block on Laurel St.

One of the new enterprises on Laurel street is the "Middlemas Shoe Store" which will occupy quarters in the Walker block. George Northrup has the contract installing the shelving and from the amount of this being put in it is evident that the store will carry a large stock of shoes.

The gentlemen composing the partnership are Van R. Middlemas and E. F. Middlemas and they were formerly in business at Redfield, S. D. This was a town of about 4,000 inhabitants and they had the best shoe store there or in that part of the state. They will carry at least \$15,000 worth of stock. The shelving on one side of the room alone is sufficient to carry 3,000 pairs of shoes.

A Sixtus V. Salad.

When Pope Sixtus V. was an obscure monk he had a great friend in a certain lawyer who sank steadily into poverty while the monk rose to the papacy. The poor lawyer journeyed to Rome to seek aid from his old friend, the pope, but he fell sick and told his doctor to let the pope know of his sad state. "I will send him a salad," said Sixtus and duly dispatched a basket of lettuce to the invalid. When the lettuce was examined, however, was found in the hearts; hence the Italian proverb of a man in need of money, "He wants one of Sixtus V.'s salads."

The Whole Truth.

"Ferdie, are you the first woman you have ever loved?"

"No, I was in love with my teacher at ten, and with a circus rider at twelve. But you are the first girl I have ever proposed to, my dear."—Kansas City Journal.

GRAND OPENING SATURDAY

Oberst Shoe Store in Citizens State Bank Building to Commence Business August 5

On Saturday, August 5, the Oberst shoe store will have its grand opening in its quarters in the Citizen State bank block on Laurel street. The proprietor, P. J. Oberst, is a former resident of Belle Plain where he conducted a successful general store for 15 years.

He will carry a full line of the celebrated Seiz, Schwab & Co. shoes and the stock is all brand new goods worth over \$10,000. The public is invited to inspect the store and get acquainted at the grand opening. 500 souvenir shoe laces will be given away to the visitors. The store will be conducted on a strictly cash basis and prices will be as low as consistent with the good values offered.

Mr. Oberst and family have taken a house on North Second street. By perseverance, industry and courteous attention to customers he hopes to build up a large trade and to become permanently identified with the commercial life of the city.

FOR SALE

Planing and wood working mill, on 10th St. So., city, formerly owned by E. J. Rhone. Complete with machinery and site. Came into possession of clients who have no experience in operating mill and must sell. Price reasonable. Call or write, G. S. Swanson, attorney, 206 Iron Exchange, Brainerd, Minn. 48tf

Taken Up

A red and white cow at my place in Section 7, Daggett Brook. Owner can recover by paying costs.

OLE ANDERSON.

Necrologic

Milton L. Hammett, aged 83 years, was born in Oneida county, New York. Fifteen years ago he came to Crow Wing county and settled at Bay Lake where he owned a large farm. His death occurred on July 26 from a complication of diseases. The funeral was held July 29, with interment at Nokay cemetery, Rev. Charles Fox Davis, of Brainerd, officiating. The deceased leaves a widow and ten children, some of whom are grown up and reside in New York state. His only brother was J. L. Hammett, of Bay Lake. The departed one was prominent and respected in his community and the sincere sympathy of his many friends is extended the family in its bereavement.

Accused of Stealing

E. E. Chamberlain, of Clinton, Me., boldly accuses Bucklen's Arnica Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from the boils or piles. "It robs cuts, corns, bruises, sprains and injuries of their terror," he says, "as a healing remedy its equal don't exist." Only 25c at all druggists.

OLDEST SCHOOL TREASURER

John W. Bouck, of School District No. 30, Refuses Re-Election After 20 Years Service

John W. Bouck, former treasurer of school district No. 30, is believed to be the oldest school treasurer in point of service in the county. Mr. Bouck assumed office when the district was organized in 1891 and held it continuously since then.

At the July school election he refused to allow his name to be presented and thus voluntarily gave up the office. During his 20 years of service more than \$5,000 is estimated to have been handled by him and all his accounts were kept scrupulously neat and exact.

SCOTCH SHEEP DOGS

AT STATE FAIR

Combined Entertainment and Instruction by Champion Dogs and Sheep Farmers.

Brought Direct From Scotland for Their First Appearance in America at Minnesota Exhibition.

Real Scotch sheep dog trials, in which the competitors will be champion Scotch collies, and their owners, the United Kingdom's most famous sheep farmers, will be a big attraction of the 1911 Minnesota State Fair and Exposition. Six dogs and three shepherds will be brought direct from Scotland for the occasion.

The trials, which are an important feature at all the big agricultural shows in England and Scotland, will be seen for the first time in America at Minnesota's big fair next September. The event will be a feature of the afternoon program every day during the fair and the announcement of

JOHN JOHNSTONE.

it has already aroused more than unusual enthusiasm.

Appreciating the value as an attraction of the sheep dog trials Secretary J. C. Simpson, after much correspondence and continued efforts, has succeeded in completing arrangements for bringing to the Minnesota State Fair, John Johnstone, James Scott and Mr. Robertson, three of the best known and most successful sheep farmers in the United Kingdom. These men with six dogs all of which have won many prizes for the handling of sheep, will start for this country next month and will be in Minnesota during the six days of the fair and perhaps longer. Two of the dogs are international prize winners.

The trials will be conducted every afternoon during the fair. They will be given over a course eight feet wide and about a half mile in length, to be laid out on the fair grounds. The starting point will be on the hill near the agricultural buildings and from there the course will lay across the track through gates, back and forth through

JAMES SCOTT AND KEP

the center field and will end in pens in front of the grandstand.

Throughout its length the course will be marked only by short flags. Over this course a flock of sheep, probably three or four in number, will be driven by each dog in turn. The expired time of each trial will not be more than twelve minutes and during that time the collie will have to drive his sheep over the entire course and pen them. During the performance of his dog the shepherd remains in one position, usually about the center of the course. A large part of the way he is out of hearing, but always in sight of his collie. He directs his course in various ways, some times by a shout or whistle, but more often merely by a motion of his hands.

Teeth as Sentinels.

"When thou sittest to eat with a ruler consider diligently him that is before thee," says the Hebrew proverb, warning a king's guest to regulate his appetite by his host's temper. Boswell, Dr. Johnson's biographer, gives in his notebook a modern paraphrase of the old Jewish proverb. "I said of a rich man who entertained us luxuriously that, although he was exceedingly ridiculous, we restrained ourselves from talking of him as we might do lest we should lose his feasts. 'He makes our teeth sentinels on our tongues,' said I."

DRILLING AT BELLE PRAIRIE

Gaylord & Guith, of Crosby, To Set up Drills in Belle Prairie Township

Gaylord & Guith, the Crosby drilling firm, will soon set up drills in sections 4, 5, 8 and 9 in Belle Prairie township near Freedhem.

Their work is expected to give an impetus to mining and drilling exploration work in Morrison county.

Attack Like Tigers

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then septicemias, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Cal. "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c at all druggists.

EARLY DAY CORONERS.

Their Inquests Covered a Wide Variety of Subjects.

It has been supposed and legal historians have told us that the office of coroner was originally instituted by King Alfred with that of the sheriff, both being designed to aid in keeping the peace when the earls gave up the wardships of the county. The legal historians are wrong, according to Dr. F. J. Waldo of the British Medical-Legal society, who has traced the history of the coroner and his ancient office as far back as the year 1194.

In early days the coroner had a wider and more general jurisdiction than he now enjoys. Coroners were wont to "hold their views" not only upon deaths where an investigation was considered necessary, but also upon various serious crimes which were treated as occasions for the raising of revenue for the crown. The mission of the coroner to the state was not alone to investigate crimes and bring felons to justice. He superintended the forfeiture of money and personal property by criminals to the crown, for the recording of which he was responsible. These forfeitures were not confined in cases of violence and death to the property of the person who could be held directly responsible, but included animals and instruments to which loss of human life under any circumstances might be traceable.—New York World.

Justice.

Justice is represented as a woman because men are always flirting with her.

If people got all the justice they deserve there wouldn't be any left.

Sometimes justice doesn't have her scales on straight.

Justice may be blind, but she sees a lot more than she takes notice of.

A man loves justice—for the other fellow.

Justice is sexless, though she wears petticoats in pictures.

Though justice may be disgraced, she is still in the ring.—Judge.

A Lively Future.

"Your life is too sedentary," said the doctor. "What you need is constant excitement."

"Well, I guess I'll get it," replied the fair young patient. "I'm going to marry a man to reform him."—Philadelphia Record.

## HORSE SHOW AT FAIR

Every Effort is Being Made to Get Best Attractions for the Same

Hamline, Minn., July 1911.—Special effort is being made by state fair officials to secure the highest class attractions for the horse show that will be given four nights during the fair in the big live stock pavilion. A number of the leading exhibitors of the best horses have signified their intention of coming and this show, which will be a maiden effort on the part of the fair management, promises to be of unusual merit.

One of the greatest attractions of the night show will be furnished by Milt. S. Mooney of San Antonio, Texas, who will show his famous illuminated tandem team and cart. Mr. Mooney is the designer and builder and uses a battery unlike any other in existence. This battery is controlled by sixteen different switches which are used to give different lighting effects.

The spirited tandem team is driven into the arena in absolute darkness by Mr. Mooney, who is acknowledged to be one of the best horsemen in the country and proves it by his handling of the horses in this act. Beside his mastery of the horses he manipulates various switches which control the eight hundred lights decorating the horses and vehicle.

First the spotlights on the browbands of the horses are turned on. Then in turn are lighted the harnesses, the wheels of the cart, the whip of the driver, the American flag and lastly the Lone Star, the emblem of Mr. Mooney's state. All of this is timed to the music of "San Antonio," "Star Spangled Banner," "America" and "Dixie," which make up the program in regular order.

The harness and regular are done in burnished silver, giving, even without the lights, a most beautiful effect. Mr. Mooney, who is famous for his fine thoroughbreds, will bring several other horses with him and will exhibit them in different ways each night of the show.

## The Same Idea

An inexpensive young fellow was called upon to make a speech at a banquet at which Speaker Cannon was present. In fact, the speaker sat next to the young man.

"Gentlemen," began the young fellow, "my opinion is that the generality of mankind in general is disposed to take advantage of the generality of—"

The speaker grabbed the boy by the arm and, pulling him down to him, said:

"Sit down, son. You are coming out of the same hole you went in."—Exchange.

## Thirty Years Together

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there's no guess work in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and its the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. It's the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hay-fever, croup, quinsy or sore lungs. Price 50c \$1. Trial bottle free. Guaranteed by all druggists.

## NEW SHOE STORE

"Middlemas Shoe Store" Will Occupy Quarters in the Walker Block on Laurel St.

One of the new enterprises on Laurel street is the "Middlemas Shoe Store" which will occupy quarters in the Walker block. George Northrup has the contract installing the shelving and from the amount of this being put in it is evident that the store will carry a large stock of shoes.

The gentlemen composing the partnership are Van R. Middlemas and E. F. Middlemas and they were formerly in business at Redfield, S. D. This was a town of about 4,000 inhabitants and they had the best shoe store there or in that part of the state. They will carry at least \$15,000 worth of stock. The shelving on one side of the room alone is sufficient to carry 3,000 pairs of shoes.

## A Sixtus V. Salad.

When Pope Sixtus V. was an obscure monk he had a great friend in a certain lawyer who sank steadily into poverty while the monk rose to the papacy. The poor lawyer journeyed to Rome to seek aid from his old friend, the pope, but no fell sick and told his doctor to let the pope know of his sad state. "I will send him a salad," said Sixtus and duly dispatched a basket of lettuce to the invalid. When the lettuce was examined money was found in the hearts; hence the Italian proverb of a man in need of money. "He wants one of Sixtus V.'s salads."

## The Whole Truth.

"Ferdie, am I the first woman you have ever loved?"

"No; I was in love with my teacher at ten, and with a circus rider at twelve. But you are the first girl I have ever proposed to, my dear."—Kansas City Journal.

## GRAND OPENING SATURDAY

Oberst Shoe Store in Citizens State Bank Building to Commence Business August 5

On Saturday, August 5, the Oberst shoe store will have its grand opening in its quarters in the Citizen State bank block on Laurel street. The proprietor, P. J. Oberst, is a former resident of Belle Plain where he conducted a successful general store for 15 years.

He will carry a full line of the celebrated Selz, Schwab & Co. shoes and the stock is all brand new goods worth over \$10,000. The public is invited to inspect the store and get acquainted at the grand opening. 500 souvenir shoe laces will be given away to the visitors. The store will be conducted on a strictly cash basis and prices will be as low as consistent with the good values offered.

Mr. Oberst and family have taken a house on North Second street. By perseverance, industry and courteous attention to customers he hopes to build up a large trade and to become permanently identified with the commercial life of the city.

## FOR SALE

Planing and wood working mill, on 10th St. So., city, formerly owned by E. J. Rhone. Complete with machinery and site. Came into possession of clients who have no experience in operating; mill and must sell. Price reasonable. Call or write, G. S. Swanson, attorney, 206 Iron Exchange, Brainerd, Minn. 48tf

## Taken Up

A red and white cow at my place in Section 7, Daggett Brook. Owner can recover by paying costs. 49

OLE ANDERSON.

## Necrologic

Milton L. Hammett, aged 83 years, was born in Oneida county, New York. Fifteen years ago he came to Crow Wing county and settled at Bay Lake where he owned a large farm. His death occurred on July 26 from a complication of diseases. The funeral was held July 29, with interment at Nokay cemetery, Rev. Charles Fox Davis, of Brainerd, officiating. The deceased leaves a widow and ten children, some of whom are grown up and reside in New York state. His only brother was J. L. Hammett, of Bay Lake. The departed one was prominent and respected in his community and the sincere sympathy of his many friends is extended the family in its bereavement.

## Accused of Stealing

E. E. Chamberlain, of Clinton, Me., boldly accuses Bucklen's Arnica. Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from the boils or piles.
